X-Rite Press Briefing

Meet ColorMunki Portfolio

The NEW ColorMunki Portfolio offers three groundbreaking products, which have been developed for key segments within the photographic and design communities. The ColorMunki Portfolio empowers you to have control and creative freedom to effectively select and manage any color in the visible spectrum.

ColorMunki Photo

Social, Wedding, Portrait and Passionate Advocate Photographer

ColorMunki Photo enables photographers to easily, quickly and affordably match colors from their displays to their prints, ensuring they are the colors you wanted, all in a simplified approach. It's the 'do everything, go everywhere solution' that lets photographers calibrate, capture, create and communicate any color in the visible spectrum.

ColorMunki Photo includes ColorMunki spectral device and software.

ColorMunki Create – Inspires Color Creation

For the first time ever, designers have the ability to create color palettes from any source, including images and PANTONE® libraries offering virtually limitless RGB/CMYK color selection. And they'll do it with peace of mind that the colors they select will reproduce properly.

ColorMunki Palettes includes palettes software and monitor calibrator.

ColorMunki Design –Ultimate Creative Solution

ColorMunki Design enables designers to, for the first time, use and essentially own the exact colors that are inspirational to them. It is an easy-to-use, personal solution that provides a smart new level of freedom in color selection, usage, and specification.

ColorMunki Design includes ColorMunki spectral device and software.

X-Rite executives and product experts are available for future commentary. To set up an interview or personalized desk-side demo, contact: CJC Strategists, Charle-John Cafiero (212) 777-7654
